📍 Gujarat, India | 📞 +91 7984296391 | ✉️ chiragtalpada0227@gmail.com | [linkedin.com/in/chirag-talpada](https://www.linkedin.com/in/chirag-talpada) | chiragtalpada.in

## SUMMARY

---

Full Stack Developer with 3+ years of experience building scalable SaaS, Agentic AI systems and AI-powered applications in production environments. Dedicated client-facing developer working directly with international founders to architect and deliver end-to-end solutions. Specializes in React, Next.js, TypeScript, Node.js, GraphQL, PostgreSQL, and AI Agent workflows including RAG, multi-agent orchestration, prompt engineering, and autonomous task execution that reduced manual effort by up to 80%.

## SKILLS

---

**Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Next.js, Node.js, Express.js, HTML, CSS

**Technologies & Tools:** GraphQL, tRPC, Zod, REST APIs, PostgreSQL, Redis, MongoDB, Hasura, Tailwind CSS, Redux Toolkit, Docker, Git/GitHub, Stripe, OAuth/JWT, TanStack Query, Shadcn UI, Better-auth, Posthog, Notion, Trello, Jira

**AI & Automation:** OpenAI, Cursor, Claude (Anthropic), LangChain, LangGraph, Hyperbrowser, Windmill, RAG, AI SDK, Vector Database, Agentic AI, AI Agents, Claude Agent SDK, Multi-Agent Workflows, Tool Calling, Prompt Engineering, MCP

## WORK EXPERIENCE

---

### eSparkBiz - A CMMI Level 3 Company – Ahmedabad, Gujarat

Software Developer (AI-Enabled Full Stack Developer)

Jan 2023 – Present

Dedicated Full Stack Developer working directly with international founders and product stakeholders to architect, build, and scale enterprise SaaS and AI-powered platforms across healthcare, renewable energy, UX intelligence, and B2B sales domains.

- Led end-to-end development of scalable full-stack SaaS applications using **React, Next.js, TypeScript, Node.js, GraphQL (Hasura), and PostgreSQL**
- Architected and delivered **multi-tenant SaaS platforms** with RBAC, organization-level data isolation, and secure authentication
- Built and deployed **AI-powered systems**, including RAG-based assistants, AI Agents, tool calling, AI workflows and streaming chat systems using **LangGraph, OpenAI, Claude/Claude Agent SDK and AI SDK**
- Reduced application load times by **25 - 40%** through caching strategies, query optimization, and Core Web Vitals improvements (~30% improvement)
- Designed type-safe API layers using **GraphQL codegen, tRPC, and Zod** eliminating runtime data inconsistencies
- Implemented real-time features using **subscriptions, queues, background jobs, and streaming APIs**
- Built production-grade **appointment & scheduling systems** with live updates and waiting lists (Healthcare SaaS)
- Developed **event-sourced financial workflows** supporting invoices, partial payments, refunds, and credit adjustments
- Integrated **Stripe billing**, OAuth authentication, cloud storage (S3/MinIO), and notification systems
- Automated AI-driven reporting workflows, reducing manual effort by **up to 80%**
- Improved API response times by **up to 50%** via indexing, caching (Redis), and optimized GraphQL queries
- **Collaborated directly with international clients**, translating business requirements into scalable production solutions
- **Mentored junior developers**, conducted code reviews, and participated in technical interviews and campus hiring

## PROJECTS

---

### Revitk – AI-Powered Sales Intelligence & Coaching SaaS

Architected a multi-tenant B2B SaaS platform with dual-mode AI (autonomous agent skills + contextual chat) using Next.js, TypeScript, tRPC, PostgreSQL, Redis, AI SDK, Claude Agent SDK and Anthropic models. Built AI sales coaching with automatic call classification and competency scoring reducing sales deliverable creation time by ~80%, implemented dynamic GTM context injection with ~35% token reduction via prompt caching, cross-session coaching memory improving AI context load by ~40% via Redis caching, developed third-party integrations (Fathom OAuth, Zapier webhooks) with background job processing, and created resumable SSE streaming with 99.9% reliability and multi-format document generation.

### **Jurnii – AI UX Intelligence Platform**

Led end-to-end development of an AI-driven UX audit SaaS using Next.js, Node.js, PostgreSQL, LangGraph, and Stripe. Automated UX analysis workflows reducing audit time from weeks to hours, optimized report performance (16s → ~2s), built RAG-based AI assistant, and implemented scalable competitor benchmarking with real-time collaboration features.

### **Medical Ocean – Enterprise EHR Platform**

Developed a multi-tenant healthcare SaaS with real-time scheduling, event-sourced billing, and standardized clinical documentation (ICD-11/CPT) using Next.js, GraphQL, Hasura, and PostgreSQL. Implemented RBAC authentication, secure document storage, and financial workflows handling invoices, claims, refunds, and partial payments.

### **Twindo – Wind Energy Operations Platform**

Built enterprise-grade, cloud-based platform designed to digitally transform wind energy operations. using React, Node.js, and PostgreSQL. Developed dynamic drag-and-drop form builder, advanced multi-slot job planner, interactive dashboards, and Overcame third-party library limitations by modifying internal behavior for large-scale scheduling.

## **EDUCATION**

---

### **Master of Computer Applications (MCA)**

2021-2023

*Sardar Patel University – Anand, Gujarat* | CGPA: 9.55/10

**Ranked 3rd at college & University level**

### **Bachelor of Computer Applications (BCA)**

2018-2021

*Sardar Patel University – Anand, Gujarat* | CGPA: 9.51/10

**1st Rank (College) | 3rd Rank (University)**

## **ACHIEVEMENTS**

---

### **1st Rank – State Level Programming Competition (2019 & 2020)**

Competed against top programmers across Gujarat; solved multiple algorithmic problems under strict time constraints.

### **Runner-Up – Blind Coding Competition (CHARUSAT)**

Successfully solved programming challenges coding 30 minutes without screen visibility, demonstrating strong logical thinking and memory-based coding skills.

### **Runner-Up – DB Mania SQL Competition**

Designed normalized database schemas and executed complex SQL queries within limited time.

### **Graduated with Distinction – BCA & MCA**

Consistently maintained 9.5+ GPA with strong focus on programming, databases, and software systems.
